

ISO/IATF Certification Information

With the slogan “Persistent improvement and innovations to achieve the best quality and customer satisfaction in the world,” TOSHIBA strives to improve the quality and reliability of products by incorporating attention to quality in all stages, from planning and designing to manufacturing. The products include automotive semiconductor devices.

To realize our goal, and to satisfy the demand for quality products from customers, we maintain a quality management system based on ISO 9001, which is an international standard, and we also carry out activities toward compliance with IATF16949.
